EXAMINER'S AMENDMENT

EXAMINER'S AMENDMENT

1. Applicant's election of claims 1-7 in the reply filed on 7/12/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. This application is in condition for allowance except for the presence of claims 8 to 15 non-elected without traverse. Accordingly, claims 8 – 15 have been cancelled.

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: Prior art discloses a photoelectric conversion section formed on the surface of a semiconductor substrate; and a charge transfer section having a charge transfer electrode for transferring electric charges produced by the photoelectric conversion section, wherein the charge transfer electrode of the charge transfer section comprises a first electrode layer comprising a silicon conductive film formed on a gate oxide film formed on the surface of the semiconductor substrate; a second electrode layer comprising a silicon conductive film formed on a gate oxide film wherein the second electrode layer is formed to sit astride and run on said first electrode layer; a sidewall dielectric film

Art Unit: 2878

formed on sidewalls of said first and second electrode layers. Prior art does not disclose the first and second electrode layers share a common end and each of the first and second electrode have a non-common end, wherein, at the non-common ends of the first and second electrodes, the sidewall dielectric film is formed solely on the sidewalls.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
